

MIRACLE COOKING—Gertrude Carr, home economist for Southeastern Illinois Electric Co-op, concluded a series of electronic cooking demonstrations Friday. Attending the demonstration Friday morning at the REA headquarters were 58 home ec girls from the Eldorado high school and Friday afternoon, when photo was made, 94 girls from the home economics departments of Harrisburg, Equality and Ridgway high schools attended. Other demonstrations had been held at Rosiclare, Benton, Crab Orchard, and Golconda. Electronics cooking is much quicker, Mrs. Carr stated, giving the following examples—hot dogs in 30 seconds, melt quarter pound butter 15 seconds, cook a one inch thick slice of ham in 6 minutes, bake a potato in 4 minutes. Cooking is by micro-waves, which penetrate, reflect or absorb, it was said. Cooking by electronics must be done in either paper, cardboard or certain types of dish or chinaware. The waves penetrate the cooking utensils and are absorbed by the food. If metal containers are used the waves are reflected and no cooking accomplished. The range was loaned to SEIEC by Westinghouse and assisting with the demonstrations were John Finerty of Westinghouse and Robert Newman, SEIEC foods preparation specialist. (Daily Register Staff Photo)

Stratton Frees Cancer Stricken Menard Prisoner

SPRINGFIELD — A prisoner at Menard State Penitentiary who is suffering from cancer and has been given only a few months to live left prison today under a commutation of sentence ordered by Gov. Stratton.

He is Paul Taylor, 35, Auburn, who was sentenced in 1956 in Sangamon County to 5-7 years in prison for burglary.

Stratton Friday commuted Taylor's sentence to expire immediately on recommendation of the State Pardon Board.

About Town

And Country

By TIMOTHEUS T.

SO MUCH HAS BEEN GOING ON that this segment of The Daily Register personnel has sorely neglected this department in recent times. And because of it, things have accumulated a bit on the desk.

I have before me a "Help, help" from some persons in the Class of 1948, Harrisburg Township high school. Members are being located for a Class of 1948 Reunion and there are eight members about whom the committee desires information. They wish somebody who knows would call CL 3-4968 or CL 3-9917 and give information about Loudene Fritsch, Ruth Clements, Ann Carroll, Roma Dillard, Richard D. Johnson, Mable Howell, James Hicks, and Charles E. Sullivan.

And right here beside my light bill (coincidence) is a copy of this week's Gallatin Democrat which reveals that the Shawneetown city council Monday night approved unanimously a plan to brighten the town at night. Shawnee avenue, a street that parallels the highway, will have ten poles with lights of 10,000 lumina, and if you want to know the definition of lumina, bear with me while I consult the dictionary so I will know myself.

Lumina, says Mr. Webster, is the plural of lumen, which is a unit of light, being the light emitted in a unit solid angle by a uniform point source of one international candle. That makes it plain.

Also included in the plans is the replacing of the 4,000 lumen bulbs now furnishing lights for the mall with larger 6,000 lumen bulbs.

Noticed the other day in Eldorado that that city is coming right along with its modern street lighting system.

Maybe some of this light will shine as far as Harrisburg.

I have before me an anniversary edition of the Harrisburg Chronicle, published Oct. 28, 1898. It carries a wealth of information about Harrisburg 60 years ago.

The edition was brought to the Register office by Miss Bess Pemberton and if things don't start happening too fast next week, I hope to be able to peruse the pages and come up with two or three columns about what I find.

Through Little Garden of Gods

Delegation Asks Extension of Highway 142 to State Route 34

A large delegation Friday conferred with William D. MacLeod, district engineer, Carbondale district, state division of highways, about extension of State Route 142 from Equality through the Garden of the Gods country to State Route 34 a short distance south of Herod.

The delegation presented its case to Mr. MacLeod and assistants for a period of two and a half hours, different members discussing its importance in the fields of recreation, industry, farming and education.

State officials from the area were in the group to voice their approval to the proposed extension of the state highway.

Following the conference Mr. MacLeod said he would investigate the proposal and make a report to the chief highway engineer at Springfield, stating the only way he knew that sufficient funds could be provided for such a project would be for it to become a part of the state highway system.

State Rep. Gordon E. Kerr of Brookport, a member of the delegation, stated after the meeting

that any extension of the highway system first would have to be approved by the state division of highways and then get final approval from the U. S. Bureau of Roads in Washington.

The delegation consisted of: Rep. Kerr, Rep. Paul Powell of Vienna, Rep. C. L. McCormick of Vienna, Sen. Paul Ziegler of Carmi; George Scherrer of Shawneetown representing Cong. Kenneth J. Gray; Geoffrey Hughes of Carverville representing Southern Illinois Inc.; R. D. Brown, Saline county superintendent of highways, and Bert Gootley, the Gallatin county superintendent; Rex Karnes of the Area Services department of Southern Illinois University;

William Farley, captain of the Ozark Tours, Harrisburg; L. P. Neff, supervisor of the Shawnee National Forest, Harrisburg; the Rev. W. E. Cummins of Harrisburg; the Rev. R. E. Ferrell of Herod; Charles Wentz and George Aydelott of Mountain township; Robert Brandt, president of the Egyptian Mining Co.; Mr. Griffin of Bradford Coal Co.; and Earl Prather, Equality school principal.

State, Federal, Local Funds

\$64,000 Improvements for Harrisburg-Raleigh Airport

An approximate \$64,000 will be spent improving the Harrisburg-Raleigh Airport Authority airport between Harrisburg and Raleigh this summer, Wilbur X. Barger, chairman of the board of airport commissioners, announced today.

Of this sum, \$28,500 will be state funds, \$27,000 federal funds and the remaining \$8,500 local funds collected by the Airport Authority.

The present hard-surfaced runway, which is 1,800 feet, will be extended another 1,000 feet. This project entails grading, base and sub-base construction, and bituminous surfacing.

In addition, the existing hard-surfaced runway and taxiway will be resurfaced and the runway lights will be extended the entire 2,800 feet. At present they are along the 1,800 feet of bituminous runway. The runway is 75 feet wide.

In addition to the 2,800-foot runway, which runs northeast-southwest, there will be an additional 1,000 feet of sod approaches to it, Mr. Barger stated.

Mr. Barger said that to have room for the runway extension, 31 acres of land to the west of the airport was bought from Dick Gann at a cost of \$8,000. What is not needed for runway will be put into crops on a crop-sharing basis, he added, stating that this plan has been in effect for some time on ground that is not needed for planes.

The state and federal money al-

ready has been appropriated and the advertising for bids is expected soon, Mr. Barger stated.

He said the work is being done because planes are getting faster all the time and more runway is needed. He stated that Arthur E. Abney, Director of Aeronautics, State of Illinois, has issued an order stating this project is included in the state's airport plan and the current revision of the national airport plan, that the project is in public interest and that the estimated cost is reasonable.

Mr. Barter pointed out that besides the hard-surfaced runway, there is an intersecting sod runway 2,515 feet in length that usually is used by lighter planes. The new 2,800 foot runway should take care of planes up to conventional twin-engine craft, he said.

Besides the upcoming project, he declared, there is a program of painting and general repair slated for the summer.

Other members of the board of commissioners are Sheldon Lancaster, vice chairman, Guy Karnes, Harry Denny and Harley Shepherd. L. M. Hancock is attorney and Lo Dema Taylor is secretary-treasurer.

Sadder, Wiser Co-Ed Returns To Her Home

In Seclusion After
17 Months of
'False Pretenses'

SPRINGFIELD, Vt. (AP) — A "sadder and wiser" Priscilla Polly Whitcomb, the 20-year-old college student who returned home after a 17-month "life of false pretenses," went into seclusion today.

Her father, U. S. Attorney Louis G. Whitcomb, told newsmen she was tired and under a severe emotional strain and presently wanted to be left alone to "make plans for the future."

Polly's dramatic return at midnight Thursday when she quietly walked in the front door of her home here and greeted her father apparently ended a storybook romance between the bright young Smith College co-ed and a penniless ex-convict.

The girl met Richard S. Thatcher, 21, while he was employed as a counterman for a restaurant across from the college in Northampton, Mass. The casual relationship grew to love, Polly said, until the pair finally decided to get married. Her father tried to persuade her against such a move and the next day she disappeared with Thatcher.

Whitcomb said the couple had lived together in a Boston apartment under the name of Mr. and Mrs. Robert Kutz during the entire time the search was on. He said they were not married.

Polly left Thatcher while he was at work, leaving only a note which read: "My picture is all over the papers and I am going home to get things straightened out. Please don't do anything foolish, honey. I'm sure we can settle this quietly. I'll be in touch with you. I love you very, very much."

But Friday night she said she had returned home to "stay permanently until I make plans for the future. These plans do not involve any other individual at the present time. I could not continue living a life of false pretenses."

'Stopper' Says Stop Dumping in Park

R. S. "Stopper" Adams, member of the Harrisburg township park board, today promised prosecutions of persons who dump their cans and other debris in the town park.

This practice has been going on and the park will be watched for violators, he stated. Charges will be filed against violators and they will be subject to fines, Adams emphasized.

AMERICANS AT BRUSSELS FAIR—Four young Americans receive directions from Belgian M. LeJeune (left) prior to official opening of Brussels (Belgium) World's Fair at which they will act as guides. They are (left to right) Carole Lothes, Seattle, Wash.; Nada Skeriy, Cleveland, Ohio; Adrian Radmore, New York, N. Y.; and Robert Murphy, Austin, Texas. (NEA Telephoto)

Labor Department Report to Spur Jobless Pay Legislation

Democrats Predict
Speedy Approval of
Program in House

WASHINGTON (AP) — A Labor Department report showing record idleness among workers covered by the unemployment insurance system gave new impetus today to congressional efforts to expand jobless worker benefits.

The department reported Friday night that 37,800 additional unemployed workers were added to the nation's jobless benefit rolls for the week ended April 5. The figure possibly topped any period since 1938.

That brought the overall total to a record 3,314,000. On the brighter side, the department said the number of fresh claims filed by newly laid-off workers dropped last week to 461,000—a decrease of 40,000.

Maine Rate Highest
Maine had the highest rate of insured unemployment with 14.8 per cent. Other percentages were: Michigan, 14.6 per cent; Kentucky, 13.2 per cent and West Virginia, 13 per cent.

Thirty states reported declines in new jobless claims. The largest reductions occurred in Michigan with 21,000; Pennsylvania, 11,300; New York 6,800; Illinois, 4,400; and California, 3,100.

Twenty-nine states reported an increase in the overall number of workers carried on their benefit lists the week ended April 5. The biggest increases were in New York, 15,300; Michigan, 14,300, and California, 5,600.

Meanwhile, Democrats forecast speedy House approval of their plan to provide 16 weeks of federally financed relief payments to

persons thrown out of work by recession.

Override Protests

The Democratic-controlled House Ways & Means Committee override Republican protests Friday and voted to expand unemployment compensation benefits far beyond the levels recommended by President Eisenhower.

The program would provide an extra 16 weeks of federally financed benefits for persons who exhaust their state payments. It also would grant benefits to about 900,000 jobless workers not now covered by unemployment compensation.

But Rep. Daniel A. Reed (R-N.Y.), top Republican on the committee, said the Democrats were guilty of "panicky political irresponsibility."

Confine Dogs, Police Chief Says

Chief of Police Ross Lane today said that it's now gardening time and that people should keep their dogs confined.

"The department has been lenient through the winter months but now that people are putting out gardens and other plants, we ask everybody to keep up their dogs," Chief Lane said.

"We're getting a number of complaints right now about dogs running at large and are asking the co-operation of the dog owners," he continued. "There's a city ordinance against dogs running loose and if co-operation is not shown we'll resort to filing charges against owners."

18 Schools Participate in Music Festival

Eighteen schools participated in the 18th annual Southern Illinois Grade School Vocal Music Festival held Friday at the Marion Junior High school gymnasium.

Three Saline county schools — Harrisburg, Dorrisville and Carrier Mills — along with Marion, Herrin, West Frankfort, Benton, Du Quoin, Carbondale City, Carbondale University, Anna, Jonesboro, Pinckneyville, Hurst-Bush, Elkhart, Cobden, Carverville and McLeansboro participated.

Approximately 1,050 students were in the three music groups—the senior chorus (7th and 8th graders) included about 475 voices, the Junior chorus (5th and 6th graders) was a little smaller, the boys' chorus numbered approximately 145.

Irene G. Watson, Carverville, was chairman of the festival and Bertha M. Jones, Benton, secretary.

Guest directors were Prof. Robert K. Barr, Murray State College; Professor Robert S. Hines, Southern Illinois University; Miss Esther Replogle, Webster Groves, Mo.

Accompanists were Mrs. Helen Tryban, Du Quoin; Mrs. Yolande Peterson, Marion; Jack Ridley, Carverville.

Following all-day rehearsals a concert was presented Friday night with a capacity crowd in attendance.

TB Directors Stress Need for County Program

The board of directors of the Saline County Tuberculosis association held its annual meeting at the First National bank in Harrisburg April 17 at 7:30 p. m. Officers and directors present were Harold Parker, president; Miss Bess Pemberton, secretary; Frank S. Gray, treasurer, and directors Guy De-Neal, Lee Porter A. A. Moore, Eckart M. Ozment, Alvin K. Gates and the executive secretary, Mrs. Naida Seright Upchurch.

The foregoing officers and directors, together with the following directors, were re-elected to serve for another year: Dr. Robert Ferrell, Russell Malan, Dr. G. R. Johnson, Mrs. J. C. Durham, Mrs. Glen O. Jones, Raymond Rann, Dr. Thos. H. Weight, Frank Gidcomb and C. A. Brown.

Director A. A. Moore plans to attend the Illinois Tuberculosis association annual meeting in Rockford on April 23-24-25.

Dr. Warren D. Tuttle, chairman of the Tuberculosis Sanatorium board, discussed with the Saline County Tuberculosis Assoc. directors, the urgent need for an intensified TB program in Saline county since this county has one of the highest TB rates in the entire state. Since approximately 80 per cent of new TB cases are in the age group of 30 years and over, methods of attracting the interest of these age groups were discussed.

Dissemination of information through county newspapers, the local radio and TV stations, talks by local doctors, nurses and others with health education training, to large adult gatherings such as P. T. A. and Farm and Home Bureau meetings, were methods discussed and recommended.

It was commented that the people in this area are unaware of the seriousness of this situation locally.

Former Eldorado Resident Dies

Jess Quick, 87, formerly a resident of Eldorado, died in the McLeansboro nursing home Friday. The body is in the care of the Kittinger funeral home in Carmi and funeral plans have not been completed.

Woman Killed by Auto Upon Leaving Rites at Mortuary

MIAMI (AP) — Mrs. Irene Douglas, 51, attended the funeral of a friend at a mortuary Friday night, and remarked to a companion that "we never know when we may also have to die." Then she walked into the street and was killed instantly by an automobile.

Soviet Refusal On Disarmament Forces Alert

Security Council
Meeting Is
Scheduled Monday

WASHINGTON (AP)—The United States today mapped strategy to convince the world that American H-bomber flights are essential to guard against the threat of sneak Soviet nuclear attacks.

Officials said U. S. representatives at a U. N. Security Council meeting set for Monday will explain that Russia forced the United States to remain on a constant nuclear alert because of stubborn Soviet refusal to negotiate a cheat-proof disarmament agreement.

Thus, the government officials said, American planes must be ready to take off instantly with death-dealing H-bomb loads whenever suspicious "blips" show up on radar screens.

Reds Denounce Flights
The Soviet Union on Friday denounced the H-bomb flights as "provocative" and endangering world peace. Soviet Foreign Minister Gromyko called on the Security Council for a speedy meeting to hear the complaint and halt the flights by planes of the U. S. Strategic Air Command.

Gromyko's statement followed a report by Frank H. Bartholomew, president of United Press, which appeared in newspapers on April 7 and April 8.

Bartholomew's dispatch explained the SAC "fail safe" system under which alerted planes head north toward the pole with H-bomb loads when suspicious images show up on radar warning screens.

Under the "fail safe" plan, the dispatch explained, the H-bombers automatically return to their bases unless, on reaching a predetermined point, they are given additional orders to continue to the target. The dispatch explained these orders can be given only on authority of the President.

Cleared By Air Force

"Fail safe," an expression borrowed from the Engineers, simply instructs the pilot to "proceed toward your target for a fixed number

Death Takes Mrs. Dan Bybee, 63; Funeral Sunday

Mrs. Gertrude Bybee, 63, wife of Dan Bybee, 1229 South Webster street, Harrisburg, died in the Pearce hospital in Eldorado at 11:30 p. m. Friday. She had suffered a stroke and was taken to the hospital last Tuesday. Her health had been failing for several years. She is survived in addition to her husband, by her son, Glendell Bybee, and her sister, Mrs. Utus Thompson. Her brother, Gene Holmes, preceded her in death in 1943.

Mrs. Bybee taught school in Saline county for 39 years and retired about four years ago. She was a member of the Carrier Mills Baptist church.

The body will lie in state in the chapel of the Harrisburg funeral home until the funeral at 3:30 p. m. Sunday in the McKinley Avenue Baptist church. The Rev. Dan Stone will officiate and burial will be in Sunset Lawn cemetery.

Pallbearers at the funeral will be the Harrisburg City School principals, Albert Lane, Fred Armistead, Dwight Karnes, Warren Priest, Eugene Morris and Fred Bramlet. Teachers are asked to be flower bearers.

The Weather

BIBLE THOUGHT FOR TODAY

As for man, his days are as
grass, as a flower of the field, so
he flourisheth, for the wind passeth
over it and the place thereof shall
know it no more. Psalm
104:14, 15.

Man is physically related to the
lower animals, sharing their phys-
ical limitations, but he is also a
son of God with eternity before
him. We are God's children and
we inherit his eternal character.

LITTLE PIGS GO TO DINNER—This low, prefabricated, 12-sided wooden structure, unveiled at Waukon, Iowa, is likely, according to farm experts, to revolutionize hog-raising methods. The "pigloo" shape—resembling an Eskimo igloo—causes the sow to lie with her back toward structure's outer walls and her teats inward. Then these little piggies go to dinner, emerging only part-way from the iron-barred center circle which provides safety from crushing. Metal guard rail behind sow also prevents injury from mother's bulk to any piglet that wanders around the perimeter. Sow enters "pigloo" at least seven days before farrowing.

Farmers Don't Get All The Money From Rising Food Prices

URBANA—Just because retail food prices rose 3.7 percent during 1957 doesn't mean that farmers received all the extra money consumers had to pay.

R. J. Mutti, University of Illinois agricultural economist, reports that farmers received about 3.8 percent more money for identical food products sold in the last quarter of 1957 than in the same period of 1956. Costs of marketing farm products averaged 2.7 percent higher at the end of 1957 than a year earlier.

Farmers received about 40.1 cents out of every consumer's food dollar at the beginning of 1958 compared with 39.9 cents a year before. From 1947 to 1949, farmers received almost 50 cents of the consumer's food dollar. This decrease in the share they get now has occurred in all major groups of food.

Among the 48 items listed by the U. S. Department of Agriculture in its market basket of foods, only farmers selling grapefruit received as high a share of the consumer's dollar as they did during 1947-49. The farmer's share was the same for eggs, oranges, canned peaches and canned peas.

The Department of Agriculture recently reported that operating costs of food-marketing firms continued upward last year. Hourly

earnings of employees rose 5 percent. Further increases are in prospect.

More valid comparisons are possible if price changes are observed over a period of several years. The Bureau of Labor Statistics uses the base period of 1947-49. From this period through December 1957, prices paid for medical care advanced 41 percent. Transportation jumped 39 percent. Housing, personal care and other goods and services each went up 27 percent. These items rose more than the average of 22 percent for all items.

During the same period, clothing and apparel rose only 8 percent, reading and recreation went up 15 percent and food prices advanced 16 percent.

Medical care includes more than doctors' fees, Mutti explains. It also includes charges by dentists, optometrists and hospitals, along with hospital insurance, drugs and prescriptions.

Transportation expenses include new and used automobiles, auto repairs, gasoline, oil, insurance, local public transportation and railroad coach fares.

Housing costs include rents and home owners' expenses, including mortgage interest, utilities, fuel, and home furnishings, equipment and supplies. Personal care figures cover all beauty shop and barber services and toilet goods.

Actually the Consumer Price Index is not an absolute measure of living costs. It measures only changes in prices of goods and services of similar quality. Living costs are determined by the amount people buy and the quality of the items they buy as well as by the price they have to pay, Mutti concludes.

WEBQ Baptist Hour Schedule

Schedule for the Baptist Hour Association program over radio station WEBQ daily from 7 to 8 a. m. as follows with the church and minister in charge:

For any question about the schedule call or write the Rev. Ernest Ammon.
April 20, Eldorado First Baptist, Rev. Eddie Hatfield.
April 21, Gaskins City Baptist, Rev. Clayton Humphrey.
April 22, Golconda Baptist, Rev. L. R. Bowles.

Fertilize When Plowing Down Crop Residues

"You have to feed the billions of microbes in the soil if you want to build soil-improving supplies of humus."

That was the statement of the Middle West Soil Improvement Committee, in a statement based on studies by Midwestern agronomists.

"The crop residues, stalks, leaves and roots you plow under are the raw material from which humus is manufactured," says the committee. "The soil microbes are the manufacturers. If all the conditions are favorable, these microbes will take over and convert the raw materials into humus."

These microbes need large amounts of nitrogen and phosphate to do their soil building job. If the soil is low in available supplies of these nutrients, the microbes won't be properly fed. Then the process of breaking down the raw materials into humus may be slowed down or halted altogether. "So it is wise to add fertilizer when you plow down corn stalks, straw and other crop residues," says the committee. Such a practice takes care of the needs of the microbes so the soil can be improved and it helps supply nutrients to help feed crops which follow.

When the soil has plenty of humus, its physical condition is good, the committee points out. The soil is loose, grainy and porous. It drains easily. More water

War On Johnson Grass In Illinois

URBANA—Farmers in southern Illinois are forming battle-lines this spring preparing to strike down an old enemy. This enemy is Johnson grass, for years the most serious weed pest many farmers have had to face.

Where this weed has become established in the fertile river bottomlands, it has cut corn yields to a few bushels an acre and has made soybeans even more difficult to grow and harvest.

Fighting it has been a tough problem. It is a perennial that spreads from both seed and underground roots. At first it appears in a few scattered clumps in a field; then, if left uncontrolled, it becomes solid in a few years.

Now, with the help of research and demonstration tests by University of Illinois agronomists F. W. Slife and E. C. Spurrier, southern Illinois farmers have some new tested and effective weapons for dealing a death blow to Johnson grass.

For the past two years, research tests in Alexander and Pulaski counties have shown that established stands of Johnson grass could be completely eliminated with eight pounds of the chemical Dowpon applied in small-grain fields after harvest.

The researchers found that to do the best killing job they had to let Johnson grass grow for 10 days to two weeks after the grain was harvested. The weeds were then chopped with a stalk cutter. After the Johnson grass had grown 12 to 18 inches high again, they treated it with eight pounds of Dowpon in 30 gallons of water per acre. These treated areas were then fall-plowed three or four weeks later.

Slife reports that farmers can control Johnson grass in fields where winter grains are not grown. With this method Dowpon is applied before corn or soybeans are planted.

Tests made in southern Illinois show that with this treatment the Johnson grass must be left undisturbed in the spring until it grows about 12 inches tall. Then 10 pounds of Dowpon can be applied in 30 gallons of water per acre. About a week later, the treated area should be plowed. To avoid damage to corn from the chemical, corn planting must be delayed about 2½ weeks after plowing. On sandy soil, planting must be delayed about three weeks. Soybeans can also be planted safely three weeks after treatment.

Although the early spring treatment delays corn planting a month, the researchers point out this delay is not serious in the extreme southern part of the state. Farther north in the Johnson grass area, farmers will find it best to begin treatment when the grass is about eight inches tall and grow shorter season varieties of corn or soybeans.

Slife and Spurrier point out that, to be effective, the Johnson grass campaign must be waged on as many fields in an area as possible. If any new seed is produced it will quickly produce new seedlings. These seedlings will produce underground roots in about three weeks and produce new seed in about 70 days.

Many counties have organized Johnson grass committees. Working with the farm adviser, they are urging every farmer with Johnson Grass to put these new tested control methods into use. One of the first groups was organized last year in Jackson county under the leadership of Farm Adviser Eldon Starkweather. They formed the Southern Illinois Johnson Grass Association to demonstrate the value of various chemicals and to secure cooperation of highway department, drainage districts, railroads and farmers in controlling and eradicating Johnson grass.

With the unfavorable planting season last spring, this association's activities were hampered considerably. But they're hoping that with cooperation from the weather they can do a more effective job this year. Farmers in 21 counties will plant demonstration control plots in cooperation with their farm advisers.

Solid and liquid mixed fertilizers are about equally effective, according to tests at midwest agricultural experiment stations.

can get in and more is held for the benefit of growing crops. There is plenty of room for crop roots to forage for moisture and nutrients.

S.I.U. Country Column

By ALBERT MEYER

A tree planter will save time, money, and labor for a farmer who has some reforestation to do on fields not suited for economical production of other crops.

This fact was shown in a tree planting demonstration on the Southern Illinois University Experimental Farms last week. The Egyptian Soil Conservation Society sponsored the event on a four-acre, irregular hilltop alfalfa field between two forested areas on the former Grammer farm which has been set aside by the SIU School of Agriculture as a soil conservation demonstration area under the Society's sponsorship.

Helping with the demonstration were the Soil Conservation Service and the University of Illinois Agricultural extension service. U. of I. Extension forester Robert Nelson, Marion, and John F. Hosner, SIU forester, took turns manning the tree planter and explaining the demonstration to visiting farmers, students, soil conservationists, and farm advisers.

More than 6,000 scotch, red, and white pine seedlings were planted during the day-long event. Seedlings came from state nurseries. Nelson says that one man and a tractor operator can plant about 1,000 tree seedlings per hour with the machine. This would be a good day's work for one man and a helper planting by hand. Planting costs with a planter are only about one-third that of hand planting to say nothing of the saving in muscular energy and the advantage of getting the job done in a hurry, Nelson says.

The operator, riding on a seat above two small, angled "packing" wheels, rhythmically pokes the small tree seedlings into a narrow

trench behind the moldboards which momentarily open a slit in the soil as the planter is pulled along by the tractor. Soil is firmly packed around the seedling by the two wheels at the rear of the planting machine. Depth of planting and spacing between trees is determined by the experience of the planter operator and the speed of the tractor.

Band-spraying a 12- to 14-inch strip over the row as corn or soybeans are planted, followed by a later cultivation, offers complete, low-cost weed control, according to a University of Illinois agronomist.

Elected to Honor Society at Park College

Mrs. Martha Armistead Simcox, daughter of Mr. and Mrs. Fred Armistead, 215 West O'Garra street, has been elected to Alpha Delta, local scholastic honor society at Park college, Parkville, Mo., officers of the society announced today.

Mrs. Simcox, as a student in the top ten per cent of the senior class became eligible for the honor. Since completing graduation requirements last January, she has been teaching in Overland Park, Kansas.

Believe Russia To Try Soon for Shot at Moon

WASHINGTON AP — Have the Russians tried a rocket shot at the moon and failed? Will they try a spectacular outer space experiment sometime before May 1, the traditional international workers day celebrated by the Reds?

These questions were the object of speculation here today. Some American officials believe Russia will attempt a rocket shot at the moon within the next two weeks.

Such a rocket shot would be calculated to have a tremendous propaganda effect throughout the world and would give the Soviet a new prestige boost at the outset of diplomatic talks in Moscow on a possible East-West summit meeting.

Government officials have been surprised the Russians have not launched more than two Sputniks in the outer space race with the United States. There was evidence the Soviets ran into trouble with their space program after getting off to a flying start.

Secretary of State John Foster Dulles told a news conference Tuesday it was "an educated guess" the Russians have encountered problems. A Soviet newspaper admitted as much a few days ago when it referred to "difficulties" in an article on earth satellites.

There is some speculation in scientific circles the Russians already have tried a shot at the moon and failed.

New Forest Ranger District At Van Buren, Mo.

Van Buren, Mo., has been selected as the location for a new Ranger headquarters, according to L. P. Neff, Shawnee National Forest Supervisor located at Harrisburg, Ill. The new Ranger District will be created by division of the present Winona District.

This move is the result of a decision to reduce the work load on larger ranger districts, and also to keep pace with increasing public demands on national forest resources.

Bob Train who recently completed the timber survey project on the Doniphan, Winona, and Poplar Bluff districts has been named the ranger for the newly created district. John Henson who has been working out of the Van Buren station for the past 12 years will remain at Van Buren as a part of the new organization.

The boundaries of the newly created district will be roughly that portion of Carter county within the present Winona District including the Fremont, Sinking Creek, and Eastwood lookout towers.

To provide housing for the additional personnel a new three room dwelling will be constructed on the present Van Buren site in the near future.

Target date for the completion of the headquarters setup at Van Buren is July 1, and will be accomplished so as to cause the least disruption in service to residents and users.

Thor Missile Explodes

CAPE CANAVERAL, Fla. (UP)—An Air Force Thor missile blew up with a shattering explosion in an unsuccessful launching attempt today, the Air Force announced.

The intermediate range missile seemed to "blow up on its launch pad," an announcement said. The projectile did not carry an earth satellite but was being fired in connection with the development of the nation's military missile program.

It was not known immediately if there were any injuries. Newsmen watching the cape said the explosion occurred about 7:30 a. m. c.s.t. and was followed by about four smaller ones. They said at first the explosion and following smoke column seemed to come from the area near the Vanguard launching pad.

The announcement came minutes later from authorities at Patrick Air Force Base that the blast was caused when the Thor blew up.

The announcement came minutes later from authorities at Patrick Air Force Base that the blast was caused when the Thor blew up.

Fined for Allowing Brush Fire to Escape To Adjoining Land

Cleto Dabbs of Brownfield, on a plea of guilty in Justice of Peace Court at Golconda, was fined \$25.00 and costs for negligently and carelessly allowing a fire to escape from his land to adjoining land.

Dabbs was burning out brush piles in a creek bed on his land during dry windy weather. While he was away from the fire, sparks were carried by the wind into leaves and broomsedge and spread to the adjoining national forest land.

This carelessness violated Illinois State statutes concerning the escape of unattended fires.

Mrs. Corrinne Givens Of Shawneetown Dies

Mrs. Corrinne Givens, 43, resident of Shawneetown, died in the Ferrell hospital in Eldorado Wednesday. There will be a brief service in the Wright funeral home at 2 p. m. Sunday and burial will be in the Old Hill cemetery.

Run by Fire Department

The fire department made a run to a grass fire at 623 West Lincoln avenue at 3:10 p. m. Friday.

Highway Work Under Way In District 9

SPRINGFIELD, Ill. — Highway construction throughout the state is moving into high gear with the arrival of warm weather, Gov. William G. Stratton announced today.

Projects in District 9, Carbondale, are as follows:

There is, under contract and pending award in District 9, work totaling \$8,350,000. Major projects included are:

In Union county the contractors are working on grade separations and on the first awarded paving section of the Interstate Route.

Work has started on a \$510,000 widening and resurfacing job in Cairo. Grading work has started on a \$1,080,000 portland cement concrete paving section east and southeast of Dongola in Union county on the Interstate System. Work has also begun on the \$250,000 concrete base course widening and resurfacing project in Randolph county near Red Bud.

Work will begin about April 15 on a \$175,000 railroad grade separation project in Franklin county near West Frankfort.

A \$520,000 bituminous resurfacing project has been awarded in Randolph and Perry counties.

A \$950,000 widening and resurfacing project has been awarded in Saline and Williamson counties, southwest of Carrier Mills, and, as soon as the weather permits, work will begin on a \$760,000 paving section in Williamson county, southeast of Carrier Mills.

Due to high water, work will be delayed until about June on construction of a \$600,000 bridge over Big Muddy in Jackson and Union counties north of Aldrich. A \$370,000 paving project east of Benton in Williamson county and a \$285,000 grade separation structure in Union county, southwest of Anna, have been awarded.

Hoover Under Surgery

NEW YORK — Former President Hoover today underwent a successful operation for removal of the gall bladder, a Columbia Presbyterian Medical Center spokesman announced.

The 83-year-old former president took what he had told doctors was his first anesthetic when the operation began at 8 a. m. e.s.t., the spokesman said. The operation was completed at 9:15 a. m., 15 minutes earlier than had been expected.

Hoover's sons, Herbert Jr., and Allan, were at the hospital during the operation. Hoover entered the Harkness pavilion of the medical center Thursday and doctors completed a physical examination Friday. They described his condition as "good" except for this gall bladder condition.

Mrs. William Cole Dies Suddenly

Mrs. Korreen Cole, 57, RFD 4, Harrisburg, died of apoplexy in her home at 4 a. m. Thursday. She is survived by her husband, William Cole; her two daughters, Mrs. Beatrice Goldsmith, Chicago, and Miss Marva Cole, Des Moines, Iowa, and her brother, Larry Williams, Alton.

The body is in the care of the Turner funeral home in Harrisburg and will lie in state at 5 p. m. today in the family home. Funeral services will be held at 2 p. m. Sunday in the Mt. Pleasant Baptist church with Rev. W. L. Robinson and Rev. William Brown officiating. Burial will be in the Sunset Hill cemetery.

SIU Enrollment For Spring Term Totals 7,644

CARBONDALE, Ill. — Spring term enrollment at Southern Illinois University is 7,644, an increase of 35 percent over a year ago, Robert McGrath, registrar, reported today. Included is an increase of 11.2 percent on the campus here over the same period in 1957.

Graduate school enrollment has climbed to 672 for the spring quarter, an increase of 96 students since fall. The total of 6,121 in residence on the Carbondale campus reflects an increase of 616 over last spring.

McGrath today listed 1,523 students on the Southwestern Illinois Residence Center campuses — 1,016 at Alton and 507 at East St. Louis. The centers show an increase of 64 over the winter term.

In addition to resident enrollment, cumulative totals since last July show 6,101 registrations for SIU adult education courses throughout the area, more than 1,400 above the comparable period of 1956-57.

Technicians End CBS Strike; Get Wage Increase

WASHINGTON (UP) — Radio and television technicians went back to work at the Columbia Broadcasting System today after a 12-day strike in eight cities.

Leaders of a rival AFL-CIO union were expected to launch an immediate effort to bring the new CBS wage scale to employees of the National Broadcasting Company and the American Broadcasting Company.

A spokesman for the International Brotherhood of Electrical Workers said all 1,300 CBS workers who struck April 7 should be back on the job by midnight tonight.

The union voted Friday to accept a CBS proposal for a wage increase that would bring top pay to \$190 a week starting after August 1, 1959. The vote was not announced.

The IBEW spokesman said the three-year CBS contract called for a 6.4 per cent wage increase, retroactive to Feb. 1, and a 2.4 per cent boost effective Aug. 1, 1959.

The technicians walked off their jobs at New York, Chicago, Hollywood, Boston, San Francisco, Milwaukee, St. Louis and Hartford, Conn.

Four Children Die in Flash Fire

MIDDLETOWN, Conn. AP — Four children ranging in age from one month to four years died Friday night in a flash fire which swept their third-floor tenement.

Mrs. Margaret Davis, 25, mother of the children, was hospitalized for shock and burns inflicted when she tried to rescue the children.

Fire officials said the blaze apparently broke out in the kitchen stove and was caused by a defective oil burner.

The dead children were Janice, 4, Bryant, 2, Sally, 1, and Wendy, one month. Their bodies were found close together in a bedroom.

General Gamelin Dies in France

PARIS AP—Gen. Maurice Gamelin, 85, commander-in-chief of Allied forces in France at the outbreak of World War II, died Friday.

After the fall of France the Vichy government arrested Gamelin and tried him along with other leaders of the Third Republic. The Germans deported him to Buchenwald and then to Itter, where he was liberated by American forces in 1945.

Tanner-Womack Wedding Vows Exchanged Saturday Evening

Miss Ruth Tanner, daughter of Mr. and Mrs. Tennyson Tanner, Creal Springs, and John W. Womack, son of Mr. and Mrs. Abe Womack, Stonefort, exchanged wedding vows in a quiet ceremony at the home of Rev. George W. Smith at 6:30 p. m. Saturday. Rev. Smith performed the marriage ceremony.

The bride wore a light blue sheath dress fashioned with an empire bodice and a bateau neckline. She wore white accessories and a lavender orchid corsage.

Miss Marilyn Womack, sister of the bridegroom, and Harold O'Neil, West Frankfort, friend of the bridegroom, were the attendants.

Only the immediate families and a few close friends of the bride and bridegroom were present. Mr. and Mrs. Womack are at home to their friends at their farm home near Ozark.

Mrs. Alma Ritchey, wife of Clarence "Doc" Ritchey, is in the Hazel Crest hospital at Hazel Crest, near Chicago.

Princess Margaret Flies to Trinidad For Ceremonies

LONDON AP — Princess Margaret flies to Trinidad in the Caribbean today to represent Queen Elizabeth at the birth of the British Commonwealth's newest nation.

The pretty princess will officiate at the opening Tuesday of the new legislature of the West Indian Federation.

The federation was formed by grouping together British-controlled islands scattered across thousands of miles of the Caribbean. It formally comes into being with the opening of the legislature.

Margaret is reported eager for a second taste of the Caribbean hospitality she first experienced in 1955. Her trip coincided with rumors she eventually might become governor-general of the federation.

Illinois PTA Favors State Income Tax To Boost School Aid

SPRINGFIELD AP—The Illinois Congress of Parents and Teachers today was on record in support of the "principle of a state income tax" as a means of increasing state school aid.

The 56th annual convention of the state PTA included support for the income tax in its basic legislative platform after accepting a report from its revenue committee urging that the state Legislature be asked to boost state school aid by 175 million dollars in 1959-60.

Mrs. Isaac Loose, Illinois, was elected congress president to succeed Mrs. Milton L. Wiener, Wilmette.

Other new officers chosen were Mrs. Robert W. Nelson, Lake Forest, first vice president; Mrs. Harold Jump, Oswego, second vice president; Dr. Franklin L. Fitch, Chicago, third vice president; and Philip W. Vance, Springfield, treasurer.

Calendar Of Meetings

The Senior unit of Wesleyan Service Guild of the First Methodist church will meet Monday at 7:30 p. m. at the home of Mrs. Alfred Johnson, RFD 4. There will be an installation of officers.

Pride of Midway Lodge No. 879, regular meeting Monday 7:30 p. m. Members also urged to remember potluck Thursday at 8 p. m. for the Odd Fellows. There will be entertainment. Mary Barger, noble grand.

The American Legion Auxiliary will meet at 7:30 p. m. Tuesday. Dolly Johnson, president.

Help Needy Japanese

TOKYO AP—The U. S. Army said today about 500 Japanese institutions and needy people have benefited from about one million dollars in money and services donated by Army sources. Army camps, chapels of all faiths, women's clubs and fraternal organizations contributed toys, baby clothes, firewood, dairy foods, rain boots, ping pong sets, furniture, time and labor.

"CAR OF THE FUTURE UNVEILED"—A "car of the future," without wheels, that would fly two or more feet off the ground, is one of the futuristic ideas delivered at the Industrial Designers Institute's national conference in Detroit. It is the design of Detroit engineer Carl Reynolds. His idea calls for a gas turbine engine to drive high pressure air through ducted fans which would not only lift the car but would also propel, guide and brake the auto. The designers said the car could drive over calm water and theoretically fly to Europe, barring severe up-and-down drafts and with a good navigator aboard. (NEA Telephoto)

HOW IS PROPERTY
SELLING?
That's a question we are asked most every day. Frankly, the way property moves when it is offered for sale depends a lot on how it is handled. For this reason we suggest you consult us. Moving property is our business. If you really want to sell, place full confidence in us. We won't let you down. There is no cost or obligation to consult us concerning the sale of your property.

Thinking
It Over

By Robert L. Diefenbacher, D.D.
(Written for NEA Service)

The physical world is influenced by chemical reactions. Molecules of one substance react with molecules of another substance to form a third and fourth substance. Atoms and electrons react on other unseen substantial powers to produce cataclysmic results.

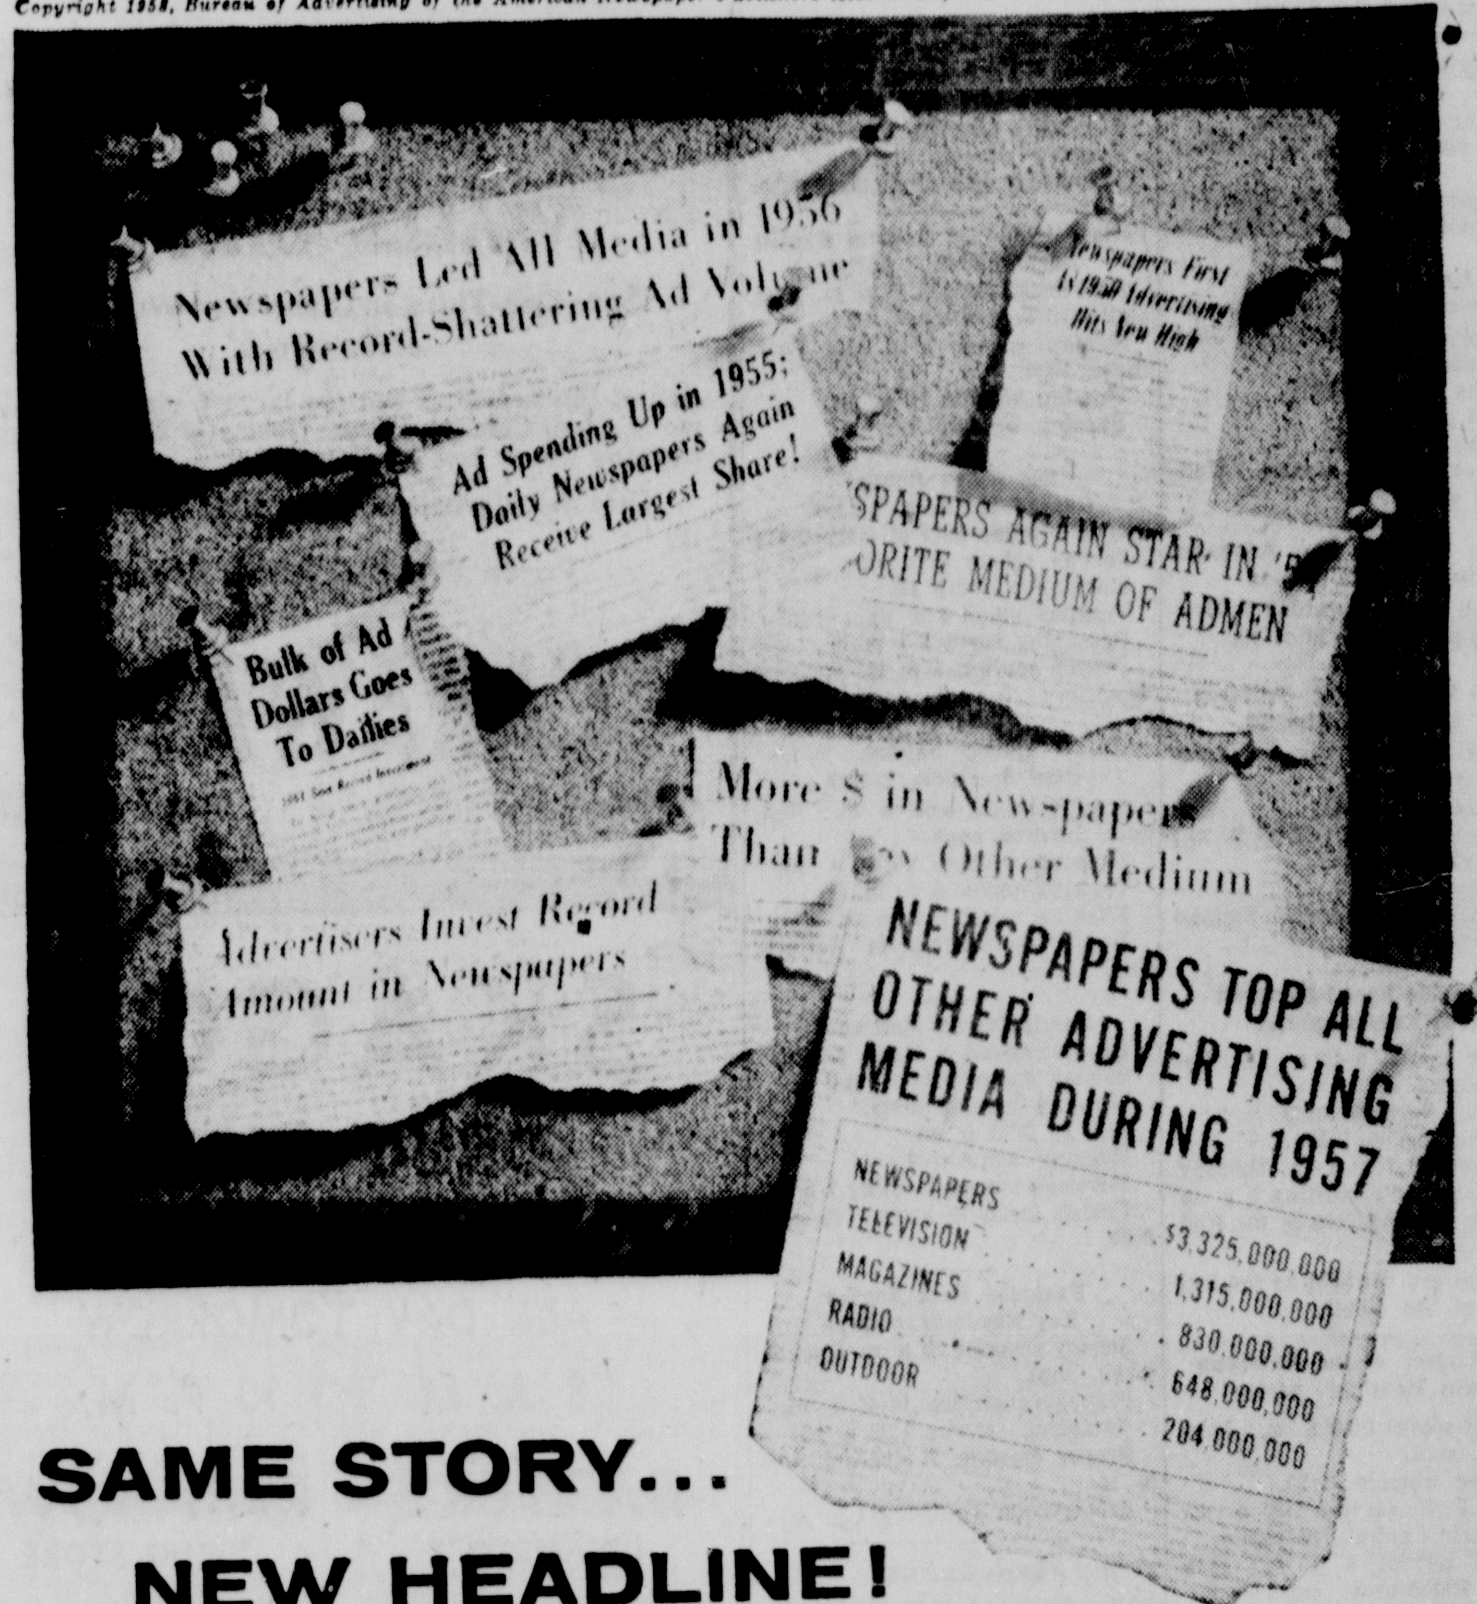

We stand in awe of nuclear energy, and of the devastating power of the atom bomb. Many of us cannot understand what causes these frightening effects. We cannot see why these complicated things happen. Yet we see the results and fear the unleashed energy touched off by men.

The spiritual reactions of our souls to the power and love of God are more mysterious than the power of nuclear fission. Yet we can all have this tremendous power of the love of God for the mere asking.

Airman in Car Crash

RAMSTEIN, Germany (AP) — U. S. airman Leroy Clifton, of Rt. 4, Brewton, Ala., was killed Thursday when his car collided with another auto on the Autobahn. Air Force officials reported today.

Copyright 1958, Bureau of Advertising of the American Newspaper Publishers Association, Inc.

SAME STORY...

NEW HEADLINE!

Year after year, as the report comes in, the same story is filed for the record. Advertisers continue to exhibit their confidence in the power of newspaper advertising by placing the bulk of advertising dollars in newspapers.

According to McCann-Erickson, Inc.-Printers' Ink Preliminary Estimates of Advertising Expenditures for 1957, advertisers spent a record \$10,432,000,000 in all forms of media. Of this

total, the largest share was again invested in daily newspapers — \$3,325,000,000.

Advertisers turn to the daily newspaper because it gives the best buy for the money. Take a hard look at your advertising budget. Is the major share going into deeper-penetrating, more resultful newspaper advertising? If so, you're on your way to more sales per advertising dollar.

All business is local... and so are all newspapers.

Army Plans to Fire Nike Guided Missile From Chicago Lake Front

CHICAGO — Army officials have announced plans to fire a Nike guided missile from Chicago's lake front in a public exhibition on how enemy bombers are tracked and destroyed. Plans for the demonstration were to be forwarded to the Army Air Defense headquarters in Colorado Springs, Colo., by Saturday. The lake front spectacle, provided Pentagon approval is given, could be carried out within the next year, possibly this fall.

FIRST MOVIE SINCE HUSBAND'S DEATH—Elizabeth Taylor is pictured in her first scene before the cameras in Hollywood since the death of her husband, Mike Todd, in an airplane crash last month. She is shown here in her role of Margaret in MGM's "Cat On a Hot Tin Roof."

RUDEMENT

Church remodeling has been started and new seats will be placed soon.

Mr. and Mrs. Bill Williams and family have moved into the community from Mitchellville. They have exchanged homes with Mr. Williams' mother, Mrs. J. A. Williams.

Mr. and Mrs. Ottis Wasson and sons, Manteno, visited Mrs. Wasson's mother, Mrs. Albert Gribble, and other relatives and friends over last week end.

Members of the community join in an expression of sympathy for Mrs. Boyd Langford and her children in the loss of their husband and father. Sympathy is also expressed for the Syers family.

Mrs. Anna Reynolds is visiting Mr. and Mrs. Earl Gribble and family for a few days.

Verdon Lambert, Peoria, visited his mother, Mrs. Sadie Lambert, over the week end.

Mr. and Mrs. Elmer Baldwin, Eagle Creek, were Sunday dinner

guests of Mr. and Mrs. Dewey Baldwin.

Mr. and Mrs. Walter Thompson, Roxana, are visiting relatives and friends this week.

Mr. and Mrs. Dwight Stuby visited Mr. and Mrs. Ezra Milligan in Hammond, Ind. and Mr. and Mrs. Arnold Barger in Peoria last week end.

Mr. and Mrs. I. N. Cole and Mr. and Mrs. Noble Cole and family visited Mrs. Cole's father, S. C. Beeson, New Madrid, in the hospital at Cape Girardeau, Mo., recently where he is a patient. He

hopes to return to his home next week end.

Mr. and Mrs. Robert DeNeal made a trip to Evansville, Ind., Tuesday, where Mrs. DeNeal had a medical check-up.

Mr. and Mrs. Jack Osborn, Pontiac, are visiting Mrs. verbal Osman and other relatives and friends.

Mrs. Mayme Fritts of Michigan visited her sister, Mrs. Nettie Langford and son, recently.

Mr. and Mrs. Lee DeNeal visited in the Milton Sadler home Wednesday evening.

ATTEND CHURCH SUNDAY

RUSSIA CAN'T GARBLE THIS MESSAGE

Behind the iron curtain is a powerful transmitter which tries to garble the messages which come from the free world.

We like to think that no one can garble the prayer of a little child to his God. But sometimes, right here in a free Christian land, we jam the wave-lengths of faith with examples of doubt and indifference. Even parents occasionally stifle the spiritual yearnings of their own children!

One of our freedoms is FREEDOM OF WORSHIP. In the sight of God, and before the eyes of a growing generation of free Americans, what shall we do with this freedom?

There has never been a day when Christian sincerity in the community, Christian example in the family, and Christian devotion in the individual were more essential for the preservation of our spiritual heritage to another generation!

Come to Church—join the Church—support the Church.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

| Day | Book | Chapter | Verses |

Sunday School Lesson

By Dr. Archie E. Brown
Pastor First Baptist Church
Vandalia, Ill.

'God Prepares a Leader'

Exodus 3:1-7; 40:45
GOLDEN TEXT: "By faith Moses, when he was come to years, refused to be called the son of Pharaoh's daughter; . . . esteeming the reproach of Christ greater riches than the treasures of Egypt: for he had respect unto the recompense of the reward." (Hebrews 11:24-26)

INTRODUCTION — God heard the cry of His children, the Israelites, come up out of the land of Egypt. Pharaoh had them as slaves for many years. He was working them hard and persecuting them terribly.

As always, when God gets ready for any movement, He prepares a man to lead in that movement. In this instance the man was to be Moses.

Remember the miraculous manner in which the baby Moses was rescued from the Nile River by Pharaoh's daughter? He was reared and educated in Pharaoh's palace schools. He made the mistake of trying to take things into his own hands, and he got into serious trouble.

Moses then fled to the land of Midian, where for many years he tended sheep. While there "on the backside of the desert," he received an education at the hands of God.

Any man called of God for special service needs a period of preparation supervised by God. For example one may look at the preparation of Elijah, Ezekiel, Paul, and many others.

I GOD REVEALED (V. 1-6)
God revealed himself to Moses in a very strange way. Moses saw a bush burning, and yet the bush was not consumed by the fire. Such a mysterious thing it was that Moses said: "I will now turn aside, and see this great sight, why the bush is not burnt."

heard their prayer, but he intended to answer their prayer. He was going to deliver them from under their slavery and bondage.

The same God who heard Israel's prayer is on His same throne in heaven today, and He is hearing and answering prayers today. Have you had your prayers answered recently? Remember, it is your own fault, if you have not.

III GOD COMMISSIONS (V. 10-14)
Just as Uncle Sam gives commissions (marching order) God, also, commissions His followers. He told Moses what He was to do to help deliver the Children of Israel from bondage. He tells folks today what He wants done, that His mission might be accomplished.

Have you ever noticed that God never does for people what they can do for themselves. However, when we have done all that we can do, then God takes over and finishes the job. (Remember when Jesus was about to raise Lazarus from the dead, He told the men to roll the stone away. When they had done all they could do, Jesus did the rest.)

Now, God is calling for Moses to lead the Children of Israel out of slavery. Like many other folks, Moses began to make excuses. It took a bit of convincing, but when Moses ran out of excuses, and turned his life and will over to God, he became one of the world's greatest leaders of all time.

CONCLUSION—The title of this lesson is, "God Prepares a Leader." God has been doing this same thing through the ages. He is doing it today. No man has a right to serve unless he knows first of all that God has called him for that special service. When he is sure of his call, then he can be sure that God is going to help him prepare for service.

A good thing to remember is that God never asks anyone to do anything but that He has already given that one the potential talent to accomplish the task. It may be that you have a talent that needs to be developed. Dedicate it to God, and watch it grow. Could it be that God is calling you for special service? Remember, He will help you to prepare yourself
